DETAILED ACTION

Examiner's Statement

1. Applicants' amendments and arguments, filed on 08/01/2005, with respect to Claims 1-23 have been fully considered.

- With regard claims 18-23, the 35U.S.C.112 first paragraph rejection has been overcome by amending the specification based on the language directly from the originally filed claims 18,19, and 21.
- With regard claims 1-17 and 20-23, the objection has been overcome by amending the independent claims 1, 20, and 21 with an appropriated language as suggested in the previous office action # 20050517, dated 06/01/2005.

Allowable Subject Matter

2. Claims 1-23 are allowed.
3. The following is an examiner's statement of reasons for allowance.
- The prior art fails to teach a method of Claims 1, 18, 19, and 21 that specifically comprises the following:
 - The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Pat. No. US 6,594,703, US 6,771,593, US 6,785,254, US 6,829,288, US 2002/0,067,724. The improvement comprises that

For claim 1, "switching the PMP node to a second piconet to exchange data with a second node within the second payload window; and

determining by the first node, in response to the PMP node missing the second rendezvous point, said PMP node switching to the second piconet" as recited, and

For claim 18, "monitoring the rendezvous points by a first master node of the first piconet to determine the slave node's first piconet presence for each of the associated payload windows;
and monitoring the rendezvous points by a second master node of the second piconet to determine the slave node's second piconet presence for each of the associated payload windows." as recited, and

For claim 19, "monitoring the rendezvous points by a first master node of the first piconet to determine the slave node's first piconet presence for each of the associated payload windows; wherein said rendezvous points are for all piconets to which the slave node belongs, the first piconet being one of said all piconets. " as recited, and

For claim 21, "the PMP node having a first rendezvous point associated with a first payload window and a second rendezvous point associated with a second payload window; a memory for storing information accessible to the first node, said information being associated with switching of the PMP node to the second piconet, and said information being stored in response to the rendezvous point." as recited.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
